Provided further that where a review initiated before the expiry of the aforesaid period of five years has not come to a conclusion

9A.(1) Where any article is exported by an exporter or producer from any country or territory (hereafter in this section referred to as the exporting country or territory) to India at less than its normal value, then, upon the importation of such article into India, the Central Government may, by notification in the Official Gazette, impose an anti-dumping duty not exceeding the margin of dumping in relation to such article.

Anti-dumping
duty on dumped
articles

Explanation.-For the purposes of this section,-

(a) “margin of dumping” in relation to an article, means the difference between its export price and its normal value;

(b) “export price”, in relation to an article, means the price of the article exported from the exporting country or territory and in cases where there is no export price or where the export price is unreliable because of association or a compensatory arrangement between the exporter and the importer or a third party, the export price may be constructed on the basis of the price at which the imported articles are first resold to an independent buyer or if the article is not resold to an independent buyer, or not resold in the condition as imported, on such reasonable basis as may be determined in accordance with the rules made under sub-section (6);

(c) “normal value”, in relation to an article, means-

(i) the comparable price, in the ordinary course of trade, for the like article when destined* for consumption in the exporting country or territory as determined in accordance with the rules made under sub-section (6); or

(ii) when there are no sales of the like article in the ordinary course of trade in the domestic market of the exporting country or territory, or when because of the particular market situation or low volume of the sales in the domestic market of the exporting country or territory, such sales do not permit a proper comparison, the normal value shall be either-

(a) comparable representative price of the like article when exported from the exporting country or territory to an appropriate third country as determined in accordance with the rules made under sub-section (6); or

(b) the cost of production of the said article in the country of origin along with reasonable addition for administrative, selling and general costs, and for profits, as determined in accordance with the rules made under sub-section(6):

Provided that in the case of import of the article from a country other than the country of origin and where the article has been merely transhipped through the country of export or such article is not produced in the country of export or there is no comparable price in the country of export, the normal value shall be determined with reference to its price in the country of origin.

[1A Where the Central Government, on such inquiry as it may consider necessary, is of the opinion that circumvention of anti-dumping duty imposed under sub-section (1) has taken place, either by altering the description or name or composition of the article subject to such anti-dumping duty or by import of such article in an unassembled or disassembled form or by changing the country of its origin or export or in any other manner, whereby the anti-dumping duty so imposed is rendered ineffective, it may extend the anti-dumping duty to such article or an article originating in or exported from such country, as the case may be.]

(2) The Central Government may, pending the determination

* Amended by Sec 62 of Finance Act, 2006.

in accordance with the provisions of this section and the rules made thereunder of the normal value and the margin of dumping in relation to any article, impose on the importation of such article into India an anti-dumping duty on the basis of a provisional estimate of such value and margin and if such anti-dumping duty exceeds the margin as so determined,-

(a) the Central Government shall, having regard to such determination and as soon as may be after such determination, reduce such anti-dumping duty; and

(b) refund shall be made of so much of the anti-dumping duty which has been collected as is in excess of the anti-dumping duty as so reduced.

*(2A) Notwithstanding anything contained in sub-section (1) and sub-section (2), a notification issued under sub-section (1) or any anti-dumping duty imposed under sub-section (2), shall not apply to articles imported by a hundred per cent, export-oriented undertaking unless,-

(i) specifically made applicable in such notifications or such impositions, as the case may be; or

(ii) the article imported is either cleared as such into the domestic tariff area or used in the manufacture of any goods that are cleared into the domestic tariff area, and in such cases anti-dumping duty shall be levied on that portion of the article so cleared or so used as was leviable when it was imported into India.

Explanation. - For the purposes of this sub-section, the expressions "hundred per cent export-oriented undertaking", shall have the meanings assigned to it in Explanations 2 to sub-section (1) of section 3 of Central Excise Act, 1944 (1 of 1944).

(3) If the Central Government, in respect of the dumped article under inquiry, is of the opinion that -

(i) there is a history of dumping which caused injury or that the importer was, or should have been, aware that the exporter practices dumping and that such dumping would cause injury; and

(ii) the injury is caused by massive dumping of an article imported in a relatively short time which in the light of the timing and the volume of imported article dumped and other circumstances

(4) The anti-dumping duty chargeable under this section shall be in addition to any other duty imposed under this Act or under any other law for the time being in force.

(5) The anti-dumping duty imposed under this section shall, unless revoked earlier, cease to have effect on the expiry of five years from the date of such imposition:

Provided that if the Central Government, in a review, is of the opinion that the cessation of such duty is likely to lead to continuation or recurrence of dumping and injury, it may, from time to time, extend the period of such imposition for a further period of five years and such further period shall commence from the date of order of such extension.

Provided further that where a review initiated before the expiry of the aforesaid period of five years has not come to a conclusion before such expiry, the anti-dumping duty may continue to remain in force pending the outcome of such a review for a further period not exceeding one year.

(6) The margin of dumping as referred to in sub-section (1) or sub-section (2) shall, from time to time, be ascertained and determined by the Central Government, after such inquiry as it may consider necessary and the Central Government may, by notification in the Official Gazette, make rules for the purposes of this section, and without prejudice to the generality of the foregoing such rules may provide for the manner in which articles liable for any anti-dumping duty under this section may be identified and for the manner in which the export price and the normal value of and the margin of dumping in relation to, such articles may be determined and for the assessment and collection of such anti-dumping duty.

(6A) The margin of dumping in relation to an article, exported by an exporter or producer, under inquiry under sub-section (6) shall be determined on the basis of records concerning normal value and

Provided that where an exporter or producer fails to provide such records or information, the margin of dumping for such exporter or producer shall be determined on the basis of facts available.;

(7) Every notification issued under this section shall, as soon as may be after it is issued, be laid before each House of Parliament.

2. THE GENERAL RULES FOR THE INTERPRETATION OF IMPORT TARIFF

Classification of goods in this Schedule shall be governed by the following principles:

1. The titles of Sections, Chapters and sub-chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative Section or Chapter Notes and, provided such headings or Notes do not otherwise require, according to the following provisions:

2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as presented, the incomplete or unfinished articles has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this rule), presented unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of rule 3.

3. When by application of rule 2(b) or for any other reason, goods are, prima facie, classifiable under two or more headings, classification shall be effected as follows:

(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods.

(b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to (a), shall be classified as if they consisted of the material or component which gives them their essential character, in so far as this criterion is applicable.

(c) When goods cannot be classified by reference to (a) or (b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.

4. Goods which cannot be classified in accordance with the above rules shall be classified under the heading appropriate to the goods to which they are most akin.

5. In addition to the foregoing provisions, the following rules shall apply in respect of the goods referred

to therein:

(a) Camera cases, musical instrument cases, gun cases, drawing instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and presented with the articles for which they are intended, shall be classified with such articles when of a kind normally sold therewith. This rule does not, however, apply to containers which give the whole its essential character;

(b) Subject to the provisions of (a) above, packing materials and packing containers presented with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provisions does not apply when such packing materials or packing containers are clearly suitable for repetitive use.

6. For legal purposes, the classification of goods in the sub-headings of a heading shall be determined according to the terms of those sub headings and any related sub headings Notes and, *mutatis mutandis*, to the above rules, on the understanding that only sub headings at the same level are comparable. For the purposes of this rule the relative Section and Chapter Notes also apply, unless the context otherwise requires.

Where in column (2) of this Schedule, the description of an article or group of articles under a heading is preceded by “-”, the said article or group of articles shall be taken to be a sub-classification of the article or group of articles covered by the said heading.
